Please comment in detail: On an aspects of the performance of the teaching assistant which you feel are particularly praiseworthy or good

Toulik is very efficient and knowledgeable and knows how to translate it to his students (us). Discussion sections are helpful because he teaches problem solving very well.

He made sure that we understood every thing before moving on. It gave me a chance to build upon my fundamentals which were integral to my success.

Toulik is the best TA, I have ever had. He is accommodating, encourages people during lab work, and helps them to succeed in class.

Always helpful and answer the questions in detail to make sure students understand the concepts.

His attitude during discussion and lab hours was wonderful. He made it much easier to learn the content by making it feel like a safe place for questions and for further explanations of the chemistry content.

Please comment in detail: On any particular aspects of the teaching assistant's performance which you feel are in great need to improvement

I cannot think of any at the moment.

I think he outperforms in every category.

In my opinion, if he would help students to engage in his office hours that would be super helpful.

Nothing really needed improvement.

Note: If you feel your TA is truly outstanding, the Chemistry Department would appreciate your saying so and giving your reason in an email to chem-ta@ucdavis.edu. The emails will be kept on file for use during the Spring Quarter in making decisions regarding nominations for departmental and campus wide outstanding TA Awards.

The TA is truly outstanding for the Chemistry Department. I love he would be able to upgrade to Organic Chemistry and help students succeed in class.

Additional feedback/comments.

I have fun being his student, he is super cool and very understanding. Thank you so much. I hope he has a great future ahead. If I do O chem next year, I want him to be my TA again. Great work !!! And I hope your students will make you feel proud.

Thank you you're literally the best
